Hello Lisa,

I'm not aware of a list of trees for the Hollywood area, but the BID can plant trees of a species consistent with what is growing on the block and determined appropriate by the area inspector.

A request to replant can be made by Service Request [\(800\) 996-2489](tel:800-996-2489) or contact bss.boss@lacity.org

Shrubs will not be permitted to be planted in tree wells, but a tree planting permit can be requested/issued by/to the BID. Or the BID can elect to partner with one of the local non-profit groups or coordinate with CityPLAnts (formerly MTLA) [213-978-1798](tel:213-978-1798)

Kind Regards,
Hector

Dear Hector:

How are you? I am no longer with Councilmember LaBonge - I took a position as the Executive Director with the Hollywood Media District BID in October this past year. The Board of Director's has made an inquiry about the time of plant material that can be replaced in the missing tree wells - do you have access to a list that you could send me or a link? Can the BID replace the empty tree wells with shrubs or bushes? What is the process and how long does it take if the BID purchase the plant material.

Thank you for your assistance.

Look forward to your response.
